Lacombe Fair

Entries are coming in fast for the

Lacombe Exhibition, to be held on

Monday, Tuesday and Wednesday,

July 27, 28, 29. The buildings and

grounds are being put in order for

the accommodation of exhibitors,

and no trouble will be spared to

make the 1951 Exhibition a record-

breaker.

These promises to be a greater ex-

hibit than ever of cattle and horses,

the leading breeders of the district

having stiffer their intention of

competing in the various classes.

There is also going to be a good

program of horse racing, in which

local horses only will compete, and

other sports may be arranged.

The Society has secured a good

line of attractions for the Grand

Stand, including:

Basnett & Bailey in great hand to

hand and head to head Balancing

Act, and other sensational feats.

At the Waldo Duo, wire walkers,

contortionists and novelty bicycle

and unicycle turns.

McCune & Grant Trio, Comedy bar

performers, in acrobatic perform-

ances.

Miss Henderson and her trained

Troupe of dogs, a great hit with the

children.

The Sensational Fred Beckles in

death-defying averaging 85 ft. pole

saw, one of the most thrilling events

ever brought to the West.

Everyone in town and district

should make an effort to make this

year's exhibition a success. The di-

rectors are going to a lot of

trouble to give visitors an enjoyable

time.

Get all information from D. F.

Chisholm, Secretary, Lacombe.

SUPPORT YOUR FAIR

It is in years like the present that

agricultural fairs function at their

best. They were evolved in the

early days of Canada's agricultural

life to stimulate better farming and

to engender a becoming pride in the

work of the farmer, and there is a

need, at this time, to do everything

possible to encourage the man on

the land in the adjustments he is

finding it necessary to make in his

farm scheme. Agricultural fairs

ought to have a good season.

If one were asked to indicate

briefly the factor counting for most

in the conduct of the average coun-

try fair, he would be quite safe in

choosing the attitude of the people

in the surrounding district toward

it, for this, after all, makes or mars

every effort relying upon public sup-

port. A locality containing a large

number of men and women who are

apathetic toward the annual fair

and co-operate in it half-heartedly, or

not at all, can never expect to find

the word "excellent" written on the

judge's report.

The first essential for success is

then, a desire on the part of a large

number of residents to put their fair

over. Granted this, the rest is easy.

A satisfactory number of entries in

all the major classes can be antici-

ipated and prepared for; the prelim-

inary work can be divided up in a

way that puts no excess on the

shoulders of an individual or small

group, and the entire program can

be carried through with a minimum

of friction and a maximum of satis-

faction.

The failure of a number of fairs to

attain the high standard set by oth-

ers can be explained by the lack of

the spirit of endeavor among the

people of the area the fair serves,

but if it be desired to canvass the

situation thoroughly it is necessary

to find out why residents of these

districts no longer look upon their

fairs with favor.

It may be too many agricultural

fairs are held. Distance means lit-

tle nowadays, and while a farmer

and his family can hop into their

car and in an hour or two be at one

of the larger exhibitions, they may

have little to do with the local en-

deavor. Several of the best class

"O" fairs in both provinces are held

in districts removed by some miles

from railways. The attendance at

these is practically one hundred per

cent, and keenest interest is taken

in every event on the program. On

the other hand there are held yearly

in both Alberta and Saskatchewan,

in close proximity to large cities, sev-

eral fairs of the highest possible or-

der. The failure of certain small

fairs can consistently be found in

the argument that they are too close

to larger centres.

Possibly one of the best methods

of examining this question is to con-

sider a few phases of the conduct of

a few of the more successful small

fairs. There are several definite ex-

amples which can be taken, and it

may be the policies adopted by the

officers of these are the keynotes to

a satisfactory showing in the pres-

ent day.

In the first place, it is to be noted

that the fairs meeting with the most

success are very definitely "agri-

cultural" fairs.

Working upon the presumption

that if you are interested the younger

men and women, you can count on

the support of the older folk, several

of these organizations are making a

feature of boys' and girls' classes

in a large number of divisions. There

is no attempt to encroach upon the

territory of the school fair; in fact,

in practice it seems to be that the

young people just past school age

are those who enter these classes,

the younger ones are content to

wait their day later on.

This undoubtedly makes supporters of

many who would otherwise be with-

out recognition by other organiza-

tion.

Stock judging competitions create

an interest which can be obtained

in no other way. These are assumed to

be the field of the juniors, but one or

two fairs have found them to be of

value when extended to included men

and women as well. The practice in

some cases has been to hold two

events of this kind, one for the young

and the other for those over 20

years. When properly conducted, they

are a never failing stimulant to in-

terest in the placing of the stock

classes, and if it is arranged that the

prize placing be a competition class,

highly qualified of course, give a re-

view of the animals and his reasons

for placing them as he did, this event

can be of considerable value to

those participating.

LADIES' REST ROOM

AND THERE SHALL BE NO MORE WAR

"And there shall be no more war." A British chaplain in Canada on a recruiting mission in the late autumn of 1915, electrified a congregation with the foregoing statement when he stood in the pulpit of a large city church. There had been no more preliminary remarks, just a minute of silence, then the ringing words, "And there shall be no more war." The pause which followed, before he proceeded to elaborate on his text,

General Steel Wares Demonstration at Lacombe

This company has equipped one of the longest express cars available with their new lines of stoves, ranges and heaters. They are sending it all over Western Canada in an effort to show the merchants and users of these goods, their latest designs of ranges, which have been intended to bring delight to the home of every housewife. This will give the merchant and his customers an opportunity to look over these lines and see what invention is doing to lighten the burdens of the householders in the home, whether it be in the city or in the Country.

There are 45 different types of stoves, ranges and heaters displayed along each side of this car with plenty of room between them so that you can examine all the many interesting products which they have exhibited in this way. You will find exhibited ranges which will burn coal, wood, gas, electricity, gasoline and coal oil, and in every case, they have shown the most efficient article which has been put on the market.

In this car each day there will be carried on a practical cooking demonstration and of special interest to the rural dwellers will be the demonstration of using Alberta Coal in one of the new coal ranges.

You will find side by side well known makes of ranges as McClary, S.M.P. and Happy Thought, each of which is a household word in the homes of Western Canada. You will see these ranges in new colors and designs which you will admit are very radical changes from the lines which they formerly manufactured. You will see the new McClary Royalty line of stoves which are now being shown for the first time.

This demonstration car will be on the railway track at the station at Lacombe on Saturday, July 11th, all day from 10:10 a.m. and it will be worth your while to come and look over these lines.

To every householder will be given a free drawing contest with a chance to win a beautiful enameled range.

Half of the interior of the specially outfitted Canadian National Railway express coach which contains more than 45 different types of stoves and heaters. In the right foreground the new McClary Royalty line of stoves with the vitreous enamel fronts and the permanent blue tops may be seen. They are being shown for the first time and represent radical changes in stove construction.

Aberdeen-Angus Field Day

Monday, July 13
The Aberdeen-Angus Breeders' Association will hold a Field Day at Lacombe on Monday, July 13th. Three prominent Aberdeen-Angus herds will be visited and also visitors will see the famous Blindman Valley, west of Lacombe, and some of the mixed farming district east of Lacombe which has made Lacombe famous as a livestock district.

An invitation is extended to every one interested in good cattle, to assemble at the Experimental Station, Lacombe at 9 o'clock on the morning of July 13th. Cars will be provided for visitors who may come by train.

IMAGINE! A brand new, late model Chevrolet Six Coach for \$788

Here is an exceptional opportunity to enjoy all the advantages of a brand new car at a great saving. This is the delivered price—including all equipment and carrying General Motors' new car guarantee. See this smart, fine-performing six-cylinder Chevrolet today.

LAIRD MOTORS, LTD.
Lacombe Alta.

The party will then drive to the farm of Mr. George A. Graham, a few miles west of Bentley, where they will inspect his herd of from 50 to 60 good Angus cows and younger stock, headed by one of the best bulls of the breed. Returning to the Experimental Station, a basket lunch will be served which will provide lunch for everyone. Coffee will be provided by the Experimental Station. An hour or more will be spent in inspecting the horses and cattle at the Experimental Station, and particularly the Aberdeen-Angus herd. Some classes of Aberdeen-Angus will be judged and later placed by prominent Aberdeen-Angus Judges who will give reasons for their placings and demonstrate the outstanding points of the Angus breed type. Leaving the Experimental Station a visit will be paid to the home farm of Thomas Henderson and Son, where a few of the choicest breeding animals of this large herd are kept. Here also one or two classes of Angus will be judged and a brief demonstration given of the points of merit of the different animals. Later the party will drive to Tees where the main body of this, the largest herd of purebred Aberdeen-Angus in Canada is maintained. At the ranch at Tees, Tom Henderson and his son, Sam, maintain a herd of approximately 800 head. These are kept under ideal range conditions and the cattle will be seen in the conditions under which they are raised on this large Aberdeen-Angus breeding establishment. To anyone who is not familiar with the Blindman Valley and the Tees district, a

most interesting sight is assured. Also, everyone will be interested in seeing these three herds of good cattle and the other livestock at the Experimental Station. The training in judging cattle which will be given during the day, will be very valuable to anyone intending to take part in the numerous judging competitions which are now held in connection with practically every fair and exhibition.

A few very brief speeches will be given by some of the prominent Aberdeen-Angus breeders of the United States and Canada who will be showing at Calgary and Edmonton exhibitions and will be on hand for the day. An interesting and profitable day is assured and a large attendance is expected for this, the first Field Day of the Alberta Aberdeen-Angus Breeders' Association.

The ladies will please bring baskets with a little extra for visitors. Coffee, cups, saucers and spoons will be provided by the Experimental Station. Instead of family parties the provisions will all be served to everyone from the central table which ensures a much more sociable time. George A. Graham H. E. Wilson President Secretary

who are interested in an opportunity to declare by their signatures next winter in Geneva, "And there shall be no more war."

EDMONTON EXHIBITION

The 49th Battalion Reunion and Church Parade will be held in Edmonton on July 19th, at 10 a.m. This will enable members to visit the 53rd annual Edmonton Exhibition, and remain in town for the church parade.

An interesting show which has been secured for the Edmonton Exhibition, July 13th to 18th, is Madame Davis' collection of ancient Chinese antiquities, costumes, ceremonial appearances, replicas and miniatures of great value and interest, and including a chamber of tortures, happily now in disuse for many years, but which helps the visitor to understand why China is so many years behind the rest of the world in progress and modern methods. In addition to the fun on the midway every afternoon and evening, and the grandstand programme and horse races, two special programmes of fireworks will be given, one on Wednesday and one on Friday night, and these will each outlast any fireworks display ever seen at the big fair. A special feature for Thursday evening, July 16, will be the parade of prize winning live stock in front of the grandstand. A last minute addition to the daily programme is Sherlaw & Co. Scotch dancers of Edmonton in a presentation called "A Wee Drop O' Scotch."

My Pledge as a Member of

THE SILVERTOWN SAFETY LEAGUE

I agree

- 1 To drive at speeds in keeping with the safety of others as well as myself.
- 2 To keep on the right side of the road, except when passing.
- 3 To pass only when I know there is ample time and space—water on blind curves or when nearing the crest of a hill.
- 4 To go through intersections only when I have the right of way.
- 5 To observe all traffic signals.
- 6 To give signals myself that can be clearly seen and understood, before turning or stopping in traffic.
- 7 To drive only when in full possession of my faculties.
- 8 To keep my brakes, lights, and horn in good condition.
- 9 To operate my car on tires which assure a positive grip on the road—safe traction—and freedom from hazardous tire failures.

The Women's Institute will meet at the home of Mrs. T. F. Roberts on Wednesday, July 8th for a social afternoon. Mr. Edwin H. Jones will give a short talk on "Laws relating to Women and Children." Hostesses: Messdames F. Taylor, R. Watson, W. Toward, C. Todd, A. Millard and R. Hoppus.

Mr. Eric Salomonson has purchased the Electric Shop on Nanton St., from Mr. Harney, and is now in possession. Mr. Salomonson is an electrical engineer of several years standing, and is prepared to undertake any work in his line. The shop will be operated under the name of "Electro-Technic."

The course in interior decoration held last week, June 20-23 under the auspices of the W.I. and conducted by Miss Genevieve Pokotilo of the Claresholm Agricultural School, proved very successful, the attendance at the different sessions varying from fifteen to thirty-five. Miss Storey, Provincial Supervisor was also present a part of the time and expressed great satisfaction with what was being accomplished.

The next meeting of the Lakeside W.I. will be held at the home of Mrs. N. Flewelling on Thursday, July 9. As this is "Children's Day," all kiddies are specially invited. Ladies please bring refreshments.

A lady's coat was picked up on Gull Lake trail on Monday. Owners can have same at this office.

Owing to the heavy rains of Monday and Tuesday the First of July Ladies Day Celebration has been postponed. The Lacombe Branch of the Canadian Legion wish to say that the postponed date will be announced later.

Miss Elizabeth Sage, who is training in University Hospital, spent a couple of days with her parents in Lacombe this week.

BOISEVAIN HONORS

MR. C. A. SNEATH

We take the following articles from the Boisevain, Manitoba, "Record-er." The articles refer to the new manager of the Royal Bank of Canada, at Lacombe, who follows Mr. E. C. Chapman, who goes to Stettler in the near future.

The news received last week that C. A. Sneath, manager of the Royal Bank, was being transferred to Lacombe, Alta., was received with anything but pleasure by the citizens of Boisevain and district. However, people cannot afford to be selfish and the fact that the move is promotion to Mr. Sneath gives a semblance of satisfaction to all, for he has proved himself to be a citizen that any town and district could well be proud of.

Before coming to Boisevain, Mr. Sneath was manager of the Bank at Brandon in which city he gained the admiration and respect of all and his removal from Brandon to Boisevain was felt very much by the Brandon Board of Trade and other service organizations. After having resided here for five years, we now know exactly how the citizens of Brandon felt at losing a man of such high calibre.

Ever since coming to Boisevain Mr. Sneath has taken a very great interest and a full share of citizenship in promoting every movement that has been for the advancement of our town and district. As a member of the Board of Trade, and Vice-President of the Board, his advice and counsel has always been sought and many of the activities of the Board can be directly traced to him. The fact of promotion by the bank officials shows that not only the citizens of this district fully appreciate Mr. Sneath's value but they also realize his worth.

The citizens of Lacombe are indeed very fortunate in having the acquisition to their town of such highly respected citizens as Mr. and Mrs. C. A. Sneath and family. We are sure we express the opinion and wish of Boisevain and district when we wish Mr. and Mrs. Sneath every happiness in their new home to be. On Monday evening a large number of companions of Corinthian Chapter met at the Masonic hall in a farewell gathering to Ex-Companion C. A. Sneath, who in the near future will take up residence at Lacombe, Alta. The evening was spent at cards, followed by a supper. Rt. Ex-Companion Hainworth was toast master and he along with a number of Companions expressed sincere regret that Companion Sneath was about to leave this district. The high esteem and affection in which Companion Sneath is held throughout the district was very evident by the lines of the several addresses. During the evening Companion

Sneath was presented with a "Key Stone."

The regular monthly meeting of Boisevain and District Board of Trade was held yesterday in the Queen's Hotel at noon hour. Between thirty and forty members being attendance and President M. Garton presiding. After luncheon, the President, Mr. Garton, on behalf of the Board, and others, presented Mr. C. A. Sneath, (vice-President of the Board) with a very handsome leather golf bag. Mr. Garton, in making the presentation voiced the sentiments and the feeling of everyone present when he stated that it was with the deepest regret that the news of Mr. Sneath's departure from our town was received. It was realized that in Mr. Sneath, the Board had a valued member who had assumed his full share of the Board's activities during the past three years, and his advice and counsel was at all times sought. Not only had Mr. Sneath taken his full share of responsibility of membership in the Board, but he at all times done everything possible to further the interests of the town and district along other lines of activity.

FARM HOME DESTROYED BY FIRE

On Saturday last the farm home of Mr. B. F. Barr was completely destroyed by fire. Despite the untiring efforts of neighbors, the fire had made such headway when discovered, that nothing could be done to save building or contents.

ENFORCE CONTRACTS OR KEEP MEMBERS?

The executive of the Camrose constituency branch of the U.F.A. think it would be "intolerable" to hold wheat pool members to the strict letter of their contract while markets are in their present condition, and urge that farmers need to get the full market price of their wheat when delivered.

What is evidently in mind is that the Alberta pool should broaden out after the manner of the Manitoba pool, which recently decided to give its members the option of pooling 'grain on the usual terms or of selling it to the pool outright and getting paid in full for it at the time of delivery. That a large number of Alberta pool members are in circumstances which make that a much desired privilege is to be supposed.

Alberta pool officials have shown no inclination to follow the Manitoba lead. They perhaps fear that if this concession were made there would be very little pooled wheat this year, most of the members finding it desirable or even necessary to

sell outright and get the full price at once.

But if that is the position of affairs, just how can the contracts be enforced? Men under pressure of extreme necessity are not morally responsible if they break contracts which they cannot keep without imposing hardship upon their families, should any great number of Alberta pool members break their contracts under pressure of necessity, prosecution would be more likely to wreck the organization than to strengthen it.

It might be better to meet the circumstances of hard-up pool members by buying their wheat, rather than compel them to pool the wheat at the risk of driving them out of the organization. As the taxpayers of the province are now responsible for the debts of the pool, they may be vitally affected by the decision of pool policy on this question.

Gull Lake Celebration

With the Alberta aquatic championships set for Gull Lake on July 25 with a full program of every type of water sport and two magnificent William Wrigley Jr. Trophies to be awarded in the provincial title swims, aquatic performers throughout the province are now starting on a final spurt of intense training which will send them flashing into the clear waters of Gull Lake in perfect condition.

The program for the big water festival, just released by the Gull Lake Aquatic association, is one of the most complete and interesting that has yet been staged in the province, and entries are already pouring in from all parts of Alberta. As usual, Edmonton will send a powerful group of contenders for all the swimming, canoeing, diving and speed boat contests. Calgary, Banff, Drumheller, Lethbridge, Medicine Hat and Lacombe will enter teams which should assure championship performances in all events.

Outstanding on the program are the one-mile swimming races for both men and women for the Wrigley trophies. These magnificent cups, which have just been received by officials of the Alberta section of the Canadian Amateur Swimming association, are masterpieces of the silversmith's art. They are for annual competition.

In addition to the mile swims, the Alberta championships will be awarded in the 220 yard men's event, and the ladies' 100 yard. These championships are authorized by the Canadian Amateur Swimming association.

While the personnel of the Edmonton swimming team which will go to

Gull Lake is not definitely decided, Claude Adams and Jack Follin, vice of the West End Club will enter while the South Side club will send Bonnie Bergman, Ronnie Keith, Carmon McRae and Nora Adair. Entries are also expected from the Borden Club pool.

Nine provincial championships will be awarded for canoe events. They will be: men's singles, one mile; men's singles 200 yards; men's tandem, 400 yards; men's fours, 400 yards; mixed fours, 400 yards; mixed tandem, 400 yards; ladies' singles, 200 yards; ladies' singles, one mile, and ladies' tandem, 400 yards.

Outboard motor boats will add the spectacular to the big program. They are expected to enter from Calgary, Banff, Edmonton and Gull Lake. Details of the events have not yet been announced, but provincial championships will be awarded in several classes at least.

While no titles will be awarded for diving, there will be exhibition stunts by many of the flashiest springboard performers in Alberta.

There will also be a generous allowance of novelty events for canoes, crab racing, tilting, standing fours and similar contests which always delight those on dry land.

A. M. Campbell is the president of the organization in charge of the water meet, while Barney Halpin is the secretary.

The program is scheduled to start promptly at 1:30 p.m. on Saturday, July 25.

POSITION OF WHEAT POOLS

The injunction granted in Saskatchewan against the spending of pool funds in advancing the compulsory project is a temporary one. It will hold good only until October, when there will be another hearing. Whether it is then sustained or not, it is a mistaken policy that the directors of the co-operative organization have pursued. The result has been to alienate many of its hitherto loyal members who were anxious to have it succeed on a voluntary basis but were strongly opposed to trying force all the farmers of the province to market their product through the pool.

The movement to that end has been no small factor in weakening the whole co-operative enterprise, though the course that the market has taken and the realization that serious administrative mistakes were made in 1929 are mainly responsible for the change that has taken place in its prospects. A decision will soon have to be reached in Alberta and Saskatchewan as to the policy to be pursued in marketing this year's crop. It is evident that the example of Manitoba, where signatories have been given the right to choose between pooling their grain or having it sold in the open market, has had a large influence in the

Summer Days Are Here Again

We Have Everything Necessary to Fit You Out so That You May Enjoy the Holidays in Comfort. Come in and Let Us Show Our New Lines of Summer Wear.

Summer Underwear

other provinces. The directors of the U.F.A. constituency association for Camrose have decided that it would be intolerable to enforce the contract while prices are so low and that the farmer "should be paid full market price for his wheat on the day of delivery." At the same time they resolved not to advocate the establishment of a "wh" board.

Whatever is the viewpoint for the voluntary organization to adopt under prevailing conditions, it would be ill-advised to throw its support to the farm board idea. The experience of nine years ago is convincing on that point. When the attempt to establish the board did not succeed then, after the necessary legislation had been passed, there is no reason to believe that the result would be

different now. In any case, it is clear that the move would not be in the interests of either the wheat growers or of the country at large.

Tenders Wanted

Sealed tenders will be received by the Secretary-Treasurer of Lincoln S.D. No. 826 up till July 15th, 1931, for the construction of a new foundation to be laid under the school-house, and the old stone foundation removed.

The School-house cannot be raised any, on account of the clock room which was built to it, which has a new foundation beneath it. The dimensions of the new foundation is 82 ft. in length and 10 inches thick and 3 ft. in depth. The average digging for the new foundation into

the ground will vary from 10 to 15 inches. Applicant must supply his own working material and haul his own sand and gravel also.

School Board will furnish the cement required, and have it delivered to the school-house. Possibly some of the rock taken from the old foundation can be used as a part of filling.

Premises must be left clean.

For further particulars apply to O. H. Berg, chairman or Wm. Gustafson, at Laird's Garage.

Highest or any tender not necessarily accepted.

Wm. Gustafson, Sec.-Treas.
Young married couple wants farm work. State full particulars. Apply Box 206, Lacombe. 325-5p
